

REMARKS

The present Amendment is in response to the Examiner's Office Action mailed August 15, 2007. By this paper, no claims are cancelled, amended, or added. Claims 1-21 and 23-25 are now pending in view of the above amendments.

Reconsideration of the application is respectfully requested in view of the above amendments to the claims and the following remarks. For the Examiner's convenience and reference, Applicants' remarks are presented in the order in which the corresponding issues were raised in the Office Action.

Please note that the following remarks are not intended to be an exhaustive enumeration of the distinctions between any cited references and the claimed invention. Rather, the distinctions identified and discussed below are presented solely by way of example to illustrate some of the differences between the claimed invention and the cited references. In addition, Applicants request that the Examiner carefully review any references discussed below to ensure that Applicants' understanding and discussion of the references, if any, is consistent with the Examiner's understanding.

I. Allowed Subject Matter

The Examiner's allowance of claim 24 is appreciated. Applicants wish to thank the Examiner for the careful review and allowance of those claims.

The Applicants submit the following comments concerning the Examiner's statements of reasons for the indication of allowable subject matter in the Office Action. Applicants agree with the Examiner that the claimed invention of claim 24 is patentable over the prior art, but respectfully disagrees with the Examiner's statement of reasons for allowance as set forth in Office Action. Applicants submit that it is the claim as a whole, rather than any particular limitation, that makes each of the claims allowable. No single limitation should be construed as the reason for allowance of a claim because it is each of the elements of the claim that makes it allowable. Therefore, Applicants do not concede that the reasons for allowable subject matter given by the Examiner are the only reasons that make, or would make, the claims allowable and do not make any admission or concession concerning the Examiner's statement in the Office Action.

II. Obviousness Type Double Patenting Rejection

In the Office Action, the Examiner rejects claims 1-21, 23, and 25 under the judicially created doctrine of obviousness-type double patenting in view of Application Serial No. 11/070,757. Applicants submit herewith a terminal disclaimer relative to Application Serial No. 11/070,757 in order to overcome this rejection. Withdrawal of this rejection and allowance of the pending claims is respectfully requested in view of the terminal disclaimer.

CONCLUSION

In view of the foregoing, Applicants believe the claims as amended or presently pending are in allowable form and that every issue raised by the Office Action has been addressed. In the event that the Examiner finds remaining impediment to a prompt allowance of this application that may be clarified through a telephone interview, or which may be overcome by an Examiner's Amendment, the Examiner is requested to contact the undersigned attorneys.

Dated this 14th day of November, 2007.

Respectfully submitted,
